3rd. A larger number of petitions for Private Statute Labor than usual have been presented, but as the Councilors for the respective Districts have recommended then who should be acquainted with the circumstances of the several cases better than we are, we cannot do otherwise than grant them; at the same time we would recommend that Councilors in future should be more particular as to their recommendations, or as the present rate of increase of Private Statute Labor, there will be none on the highways. We would recommend the following parties have liberty to do their Statute Labor on their own roads: -

In Sec. No. 1. Malcolm McKenzie, W.M McKenzie Wm. Grant

4th. The Petition of John R. McIntosh for Private Statute Labor we do not recommend, as the petition shows that he had it granted him last year, and a resolution of this Council precludes any person getting the same privileges two years in succession.

5th. The Petition of Peter R. Stuart for Private Statute Labor was referred to Surveyor of Highways for consideration.

6th. The memorial of Mr. W.R. Evans, regarding the right of Hugh D. Denoon sitting as a councilor was under consideration, and we would recommend that Mr. Evans apply to the proper authorities, as we have no jurisdiction in the matter.

7th. Your Committee have had under consideration the Statute Labor Law, or more particularly it's working in this county. Unless some change is made in this Law it will be impossible to keep the roads in many sections of the County in a passable state, with out resorting to direct taxation, and making the same a County charge. If, however, there were a

right assessment law and property both real and personal now valued at their actual cash value, and not nominally as at present, and all exemption on account of age done away with, we might still go on for a few years under the present Act, but we are in hopes that the Legislature will at its first session so amend the Act that it will suitable for all parts of the Province, and give us such an additional amount of Labor as will keep the Roads in good repair.

8th. Your committee recommend that the Road Limits in Sec. 3, No. 85, be defined as follows – No. 85, St. Andrews Street, McLean Street, Black Street, Spence Street and the part of St. George’s Street, now opened in East Johnville.

9th. It has been brought to the notice of your committee that Section men and others employed on the Government Railways refused to do their Statute Labor on the ground that they are exempted by Law. Your Committee cannot find that they are, and would recommend that Surveyors of Highways take proceedings against such parties, and that the expenses, if any, be borne by the Municipality.

11th. W. McKenzie of Toney River, Surveyor of Highways for No. 42, complains that he has sued Angus McDonald for his Statute Labor, and got judgment, but that McDonald has appealed to the County Court, and the expenses are known. All of which is respectfully submitted.

The matter of Nathan Langille, laid over from the forenoon was again brought up, and a lengthy discussion ensued, when, on motion of Councilors McKenzie and Kitchin it was resolved that Nathan Langille of River John be released from further support of William and Eunace Langille of River John, and that the order of council of January 1881 be rescinded, cancelled and set aside, provided the said Nathan Langille pay up all arrears against him for support of said persons.

 Ninth Day

January, 20

Council met at 10 a.m. pursuant to adjournment. Minutes read and approved.

Mr. McColl’s resolution laid on table yesterday, in reference to Statute labor was read, as follows – *Whereas*, from the many petitions that have been before this council, it appears there is no understood system of enforcing the doing of statute labor, or the payment of the commutation money.

And Whereas, unless there is some by-law by which these things can be enforced better, or no statute labor bill be obtained in the municipality, or commutation money received for the same, and in consequence our roads will be neglected and rendered impassible;

Therefore Resolved, that the following by-laws be annexed to the by-laws of the municipality –

All surveyors of highways and limits shall, on the completion of the statute labor for the year, make a return of all the delinquent parties in his limits, and certify to the same, which return on being approved of by the Councilor of the district shall be his guarantee for proceeding against all such parties, and the legal costs of the same shall be a charge on the municipality.

Moved by Coun. McColl, seconded by J.R. McDonald.

Moved by Councilor Robert Dewar, and seconded by H.S. Fraser, *Whereas*, from the experience of the last seven years, we are satisfied that one half the number of Councilors will do the work of the municipality, as well, if not better than the present number.

And Whereas, a reduction of the number of members to thirteen would not cost more than one half what it now does for conducting the business before the council;

Therefore Resolved, that this council apply to the local legislature at its first meeting for an amendment to the county incorporation act, to reduce the number of councilors in this municipality from twenty-five to thirteen.

This was laid over until the afternoon.

Report of committee on assessments read, received and adopted, also report of committee on license.

To the Finance Committee of the Municipal Council, January Term, 1887

GENTLEMEN –

Your auditors beg leave to report that they have examined the accounts of the past year as contained in the books of the Clerk and Treasurer together with their vouchers and found the same correct. The Treasurer has submitted a statement of the receipt and expenditure which we trust is sufficiently explicit.

We have also examined the several bills filed for payment and endeavored to direct attention to any items which we considered required special investigation.

All of which is respectfully submitted.

Report of Committee on R. R. Crossings

To the Municipal Council of Pictou, January Term, 1887

Your Committee appointed to examine and ascertain the best way of crossing the Railway Bridge on Pictou Harbor beg leave to report: -

After examining and inquiring of residents in the vicinity, they would recommend that the Council ask the Railway authorities to construct two suitable ways under the Bridge at high water mark, say one at Brown's Point, and the other at Loch Broom, where the Bridge connects with the dump or embankment, - said ways to be not less than twelve feet in breadth. All of which is respectfully submitted.

H.D. DENOON

J. ROD MCDONALD

H.S. FRASER

Also, ordered that the same committee, viz. Denoon, McDonald and H.S. Fraser be a committee to look after this matter and secure the best crossing possible.

Councilor Dewar's resolution to reduce the number of Councilors from twenty-five to thirteen was taken up, and after animated discussion was defeated by a vote fourteen to eight.

On motion of Councilors McColl and Bell the chairman of road boards were instructed to make up the account of expenditure to Dec. 31, 1886, and send the same to the municipal clerk, and that the same be published with the minutes of Council.

On motion of Councilors McColl and John D. Fraser the commissioners of the County Asylum were requested to make up their accounts anew, showing the details of expenditure for building, furniture, and running expenses from the commencement to the 31st Dec. 1886, and that the same be presented to the May meeting.

Report of committee on public property read and ordered to lie on the table until tomorrow morning.

Adjourned to 10 a.m. Friday.

Tenth Day

JANUARY 21

Council met this morning pursuant to adjournment. Minutes of last meeting read and adopted.

Took up report on public property laid over from yesterday.

It was moved and seconded that the report be received and adopted as follows:

Report of Committee on Public Property

To the Warden and Council now assembled, Jan. Term, 1887.

Your committee on public property beg leave to report as follows:

1st. Your committee made the usual inspection of the old Court House and jail, and are much pleased to find everything in good order, the prisoners well provided for, the jail nice and clean, and well ventilated.

2nd. Your committee beg leave to remind this Council, that an offer was made to the Pictou Town Council of the market and grounds on similar terms and agreement as made with the Town of New Glasgow.

3rd. And Whereas a willingness was expressed by the Councilor of No. 1 Sect. and then Mayor of the Town of Pictou to accept the same, and consequently a Clerk of Market was not appointed, and during last summer the market was closed, and the Farmers of this side of the County were put to a great inconvenience and loss of time.

4th. Therefore your committee would recommend the appointment of a Clerk of Market, and a small sum be provided for repairs of platform around the building. The matter of the hay scales in the Town of Pictou was brought to the notice of the Council, stating that the Hay scales were condemned, and that there was no qualified weigher of hay appointed last January term.

5th. And whereas your committee were instructed to see James Paulin and arrange with him for the use of his scales and have them put on the old site opposite the Market on Water Street which your committee did, alter Jas. Paulin considering the matter he agreed to remove the scales to the old site, providing the expenses for masonry required be allowed him, the sum not to exceed twenty five dollars, and that he be appointed weigher of hay at usual rate, the same as heretofore charged. Your committee beg leave to suggest this offer be accepted.

6th. Your committee has also found the New Court House in good repair, but our attention has again been called to the necessity of having the Court House and ground fenced, and the great necessity of improving the sound or hearing in the Court Room. Your committee cannot do any better than to give you the views of the Sheriff of the County, which are as follows – I beg leave to bring to your notice the want of a fence of some kind around the Court House Lot. My attention, as well as that of my late brother and father, has been called to this matter by the Judges who preside at Courts in Pictou, quite often. The school children who use it as a playground breaks the glass in the building as you may see by the bills from year to year, and have three times broken the stained glass behind the Judge's seat, besides grounds being open and the building vacant, all kinds of filth is left about the doors, and if fenced in and a few trees planted around , would make the place look quite respectable. Again the sound in the building as well as the heat rushes up into the gallery, making it almost impossible to hear a person when speaking in an ordinary voice, and as I am led to believe from persons, who should know, that it would help the sound to shut up the gallery, and I am of the opinion the cost of so doing would be paid for in two years, that much less coal, and not having to burn out the furnace to keep it comfortable in the Court room.

(Signed)

J. SIM. HARRIS

In this case your committee would recommend that the commissioners of Court House and public property ask for tenders for the above named work, and submit the same at the ensuing May meeting, the municipality not bound to accept the lowest or any tender.

From the Report of Commissioners of Public Property, New Glasgow.

Your Committee finds that the sum of \$292.57 has been expended on the court House and Jail, which acct. annexed, and in our opinion is a large sum to be expended in repairs in one year; and further we find in the Commissioners report that a further sum is required to put the prison

cells in order, but we do not feel justified in recommending any further expenditure this year without the consent of the Council,

Memo, from Acct. Com'rs. New Glasgow.

The Report of Supervisors of Public Grounds for the Township of Egerton

The report of supervisors of public ground was laid before us.

The Supervisor report states two cases in particular that gave them a considerable of trouble. The first was at Elgin, where Samuel Cameron's saw mill through the lands of the said Angus and Duncan Chisholm, along the side of the Brook one hundred and seventy-one rods, but as the road is now fenced, Cameron has not more than from ten to fifteen feet in some places, and they think that the same Committee should again be sent, with instructions to give the said Samuel Cameron a curved road twenty feet wide along the side of the Brook to connect with the main road at Chisholm's, and leading to the main road at McPhee's.

The next was at the Eureka Mills, where some parties complained that Robert Muir and Mr. Barkelay had been encroaching on the public highway from the Mills to the Main West Branch Road leading from Hopewell to Stellarton, by keeping their fences up at thirty feet instead of fifty. The supervisors states that Mr. Barkelay removed his fence at their request but Mr. Muir positively refused, which gave them three trips to the place with cost to the amount of twenty-five dollars, nearly half their account.

Now, in the case of Samuel Cameron at Elgin, your Committee finds on searching the records of the County, that as late as the year 1885, that a precept was granted, and committee laid off a road, and the plan is filed with the report, and confirmed by the Council, twenty feet wide along the said Brook, and through the lands of Angus Chisholm, Duncan Chisholm and Daniel Urquhart.

Your Committee recommends that Road Superintendent for Road Board District No. 3 be instructed to examine said Samuel Cameron's pent road, and remove any encroachments or fencing off the bounds of the road.

Next, in the case of Robert Muir, at Eureka Mills, at the Forks of West Branch, East River, Robert Muir appeared before us, and claimed that part of the land taken from him was never appraised, and that he received no damages for a distance of nine rods. However your committee on searching the records, find that as recent as 1870 a precept has been granted, and a committee laid off said road and appraised damages together with plans and report showing the road to be laid off fifty feet wide, said road being confirmed the 9th day of February, 1871.

In this case your Committee would recommend that the Supervisor of Road Board District No. 3 be instructed to remove all obstructions, fencing otherwise.

Your Committee has been instructed to make enquiry as to the closing of the landing to and from the ice on Kempt Street, which has been used by the public for the last fifty years, known to be the most central and safe landing on the Town of Pictou.

We beg leave to submit the following information which was courteously supplied by the Register of deeds of this county, which we annex to this report, which in our opinion positively shows that Kempt Street has been dedicated to the public.

And Whereas, The Railway has closed the different landing places, your Committee are of the opinion that the Town Council and the County Council should take immediate action to have all obstructions removed, in order that the public may have a landing as heretofore, which in our opinion is the most suitable for a railway crossing as the Town of Pictou.

Your Committee has nothing to report from River John.

No report from Stellarton.

No report from Westville.

In conclusion, your Committee would recommend the Municipal Clerk be instructed to have all the public buildings insured against fire in an office of good standing, in the name of the Municipality of County of Pictou.

All which is respectfully submitted.
